

## Archivos suplementarios

**Supplementary table 1.** Classification of variables in the first round of expert consensus

1st round		
Accepted	Rejected	No decision
Age (years)	Race	Sex
Occupation	Weight (kg)	Height (cm)
Smoker/Ex-smoker	BMI (kg/m <sup>2</sup> )	Years of smoking
Age when started smoking	Weight, BMI (Categorical: < 25; 25.1-29.7; > 29.7]	Number of daily cigarettes of another smoker
Number of daily cigarettes	Education level	Daily hours of wood smoke exposure
Age when stopped smoking	Number of years in that level	Presence of wheezing
Packs per year (continuous variable)	Study years completed	Frequency of wheezing
Passive smoker	Last year in school	Wheezing in the last 12 months
Wood smoke exposure	Retired patient	Chronic expectoration
Years of wood smoke exposure	Smoked at least 100 cigarettes	Cough affected by weather
Previous diagnosis of COPD, chronic bronchitis, or emphysema	Packs per year (Categorical: 0-14; 15-24; 25-49; > 50)	Chronic cough in the morning
Previous diagnosis of asthma, asthmatic, or allergic bronchitis	Packs per year (Categorical: 0; < 20; 20-30; > 30)	Diminished life quality
Previous spirometry	History of allergies	
Presence of respiratory symptoms	Dyspnoea in the last four weeks	
Age when the respiratory symptoms began	Presence of phlegm or mucus	
History of atopy	Frequency of cough with phlegm	
Presence of dyspnoea	Cough and expectoration with cold weather	
Frequency of dyspnoea during physical activity		
Presence of chronic cough		

**Supplementary table 2.** Classification of variables in the second round of expert consensus

2nd round		
Accepted	Rejected	No decision
Daily hours of wood smoke exposure	Years of smoking	Sex
Chronic cough in the morning	Diminished life quality	Height (cm)
		Number of daily cigarettes of another smoker
		Presence of wheezing
		Frequency of wheezing
		Wheezing in the last 12 months
		Chronic expectoration
		Cough affected by weather

**Supplementary table 3.** Classification of variables in the third round of expert consensus

3rd round	
Accepted	Rejected
Sex	Height (cm)
Number of daily cigarettes of another smoker	Wheezing in the last 12 months
Presence of wheezing	Cough affected by weather
Frequency of wheezing	
Chronic expectoration
